Tales from the Cyberhood

The editors are offering a prize of a bottle of wine for the most incomprehensible Internet URL. So far, the short odds favourite is

http://ssdc.ucsd.edu/cgi-bin/gatewai/gpogate?waisdoc=1&4=wais.access.gpo.gov;1996_record/TEXT/80911/3=2081583%2080911%20/diska/wais/data/1996-record/crO9my96.dat.wais;

If you can beat that, then you deserve a bottle of wine.

Hyper Links

Law-related web sites are ever on the increase, and few lawyers familiar with the Internet will not be able to find many useful resources relevant to their particular areas of interest.

Some sites that I have personally found particularly useful are the following:
