ALLOCATION OF PAY TV LICENCES A AND B

The ABA has received notice of two Federal Court actions to set aside allocation of satellite pay TV licences A and B. 'The principal matters considered by the ABA are contained in its two reports on the investigations leading to the allocation of the licences,' said Mr Brian Johns, ABA Chairman.

'The process leading to the allocation of the licences was prolonged and public, but the ABA will look at the terms of the action in the light of any new information and the Broadcasting Services Act,' he said.

The ABA is making no further comment at this stage.
