

ABA meets with industry in Bendigo

On Tuesday 31 October, the ABA held a regional meeting with representatives of the broadcasting industry and others in Bendigo, Victoria. This is the first time the ABA has held a meeting in a regional centre.

'Having meetings like this in regional centres helps the ABA be more aware of local issues,' said ABA Chairman Professor David Flint. 'Meeting face to face with broadcasters on a regular basis also enables the ABA to explain its work program and priorities and allows broadcasters to raise any matters of concern to them.'

L-R: Brad Gier, KLFM talks with Professor David Flint
