

New open narrowcasting services

The ABA has announced the highest bidders for new open narrowcasting services offered at two separate licence allocation exercises held on 27 September. A number of the advertised licences received one application each.

The accompanying tables list

the licences and the names of the successful applicants for each licence.

The new licence holders must each commence services within six months of being allocated a licence, or such longer period of time as approved in writing by the ABA.

Highest bidders for new open narrowcasting services in NSW, Victoria, Queensland, South Australia, Western Australia and Tasmania
