

Call for applications for open narrowcasting services

Applications

Anyone interested in applying for any of the available licences must purchase an information package titled *Price-based Allocation of Apparatus Licences for Open Narrowcasting Services* from the ABA, price \$40. An application cost of \$550 also applies to each application.

To purchase a copy of the package please contact the ABA's Licensing Section on (02) 9334 7927.

The ABA has invited applications for 37 open narrowcasting radio services to serve New South Wales, Northern Territory, Queensland, South Australia and Western Australia (see table).

Applications for the licences close at midnight AEST on Thursday, 12 May 2005.

Licences will be issued under a price-based allocation system developed by the ABA. If there is more than one applicant for a licence, an auction-style licence allocation exercise will be held at which the licence will be

issued to the highest bidder. If there is only one application for a licence at the close of applications, the licence will be issued to the applicant for the reserve price which is \$4000 for each licence.

Licences will be issued to successful applicants once certain requirements are met.

If a successful applicant does not meet any of the requirements of the Determination, the applicant will not be issued the licence. The ABA may then re-offer the licence.

State	Location	Frequency (MHz)	TS number	
New South Wales	Balranald	95.5	10004334	
	Brewarrina	94.5	10004501
