## COMPLAINT HANDLING BY COMMERCIAL TELEVISION STATIONS JULY TO SEPTEMBER 2005

Commercial television stations reported 376 written complaints about matters covered by the code of practice in the third quarter of 2005. This is 5.3 per cent less than the 397 complaints reported in the previous quarter.

### COMPLAINTS UPHELD

In 10 instances this quarter, the station agreed that a complaint identified a breach of the code, compared with five upheld complaints in the previous quarter. The 10 instances related to eight broadcast items. Network Ten upheld the following complaints.

- Two complaints; about the violence in the program *Monk* (Southern Cross Ten).

- Although network classifiers requested changes to an episode of *Monk* to allow it to be broadcast in the PG time zone, a technical oversight resulted in an unedited version of the program being broadcast.
- Two complaints; about an inappropriately placed advertisement shown during *The Simpsons* (Southern Cross Ten Northern NSW). Network Ten said that the advertisement, which was classified S, was placed inappropriately as a result of human error.
- Two complaints; about an inappropriately placed advertisement for One Stop Entertainment 'Maximum

- Bass', shown during *The Simpsons* (Southern Cross Ten Victoria). Network Ten agreed that the M classified advertisement, was inappropriately placed as a result of human error.
- One complaint; about the placement of a program promotion for *House* shown during *The Simpsons* (Southern Cross Ten Victoria). Due to an administrative timing mistake, Network Ten provided the promotion to Southern Cross before the classification was finalised. This resulted in the program promotion being shown at the wrong time by Southern Cross before Network Ten

- advised Southern Cross of the correct classification.
- One complaint; about the inappropriate placement of a commercial shown during *Cheez TV* (Southern Cross Ten Victoria). Network Ten agreed the advertisement was inappropriately placed as a result of human error
- One complaint; about coarse language in a video clip shown on *Video Hits* (Network Ten). An unedited version of the video clip was shown as a result of human error.
- One complaint; about an inappropriately placed commercial shown during *Ten News* (Southern Cross Ten). Network Ten agreed

The Commercial Television Industry Code of Practice 2004 requires each commercial television broadcaster to report to FreeTV Australia, within 15 working days of the end of each quarter, the number and substance of written complaints alleging specific breaches of the code. FreeTV Australia provides a consolidated report to ACMA.
