EDITORIAL

In this issue, we are publishing papers on international environmental law by Mr. Pat Brazil, on developments in the Caribbean by Professor Francis A. Boyle, on Australia's Maritime Boundaries by Mr. P. G. Bassett, on the abuse of diplomatic privilege by Professor D. W. Greig, on the US trade deficit by Dr. Gary C. Hufbauer, and on US Installations in Australia by Dr. Desmond Ball. We are also publishing statements by US Secretary of State George P. Shultz, by US Assistant Secretary of State for East Asian and Pacific Affairs, Paul Wolfowitz and Director of the IMF Jacques de Larosière. A number of current issues are noted and documents incorporated. We are concluding our series on the destruction of the aircraft KAL 007. It is particularly reassuring to note that the resolution which emerged from the ICAO Assembly was adopted unanimously.

By the time this issue is published, the various delegations will have returned from the ILA Conference in Paris. We hope to include a report on the conference in our next issue.
