

News from the Divisions

ACT BRANCH

Australian Federal Libraries Council

In March this year the ACT Branch set up a sub-committee to further the goal of establishing an Australian Federal Libraries Council (AFLC).

The idea of setting up a body which would co-ordinate the administrative and research work required to enhance effectiveness and efficiency in federal government libraries, has been around since the late 1960s. In 1977 the previous sub-committee produced the 'Review of Operations of Commonwealth Departmental Libraries' (LAA 1977) which recommended the creation of an independent planning body modelled on the US Federal Library Committee. This report was subsequently presented and discussed with the Commonwealth Public Service Board, but with no result.

The new sub-committee has been formed to take the matter up again. A discussion paper has been prepared and circulated to federal government libraries throughout Australia. The response to the paper has been heartening, and many enthusiastic comments have been received. Anyone who would like to receive a copy of the discussion paper should contact Rosemary Bell, Convenor of the AFLC Sub-Committee, c/- Dept of Foreign Affairs, Administrative Building,

ASCIS and TASCIS

A LETTER appeared in InCite No18, 1 October 1982, from Marianne Broadbent, Lecturer, Department of Librarianship, MIT.

Unfortunately some typographical errors occurred, and we therefore reprint the corrected paragraphs.

Library files are relatively large and almost all applications require sophisticated information retrieval software to access these files. In general, these criteria are beyond the immediate capabilities of microcomputers, however specialised functions can be implemented both at local and regional level . . . If any library system is to be automated the school librarian must be confident that the computerised system will provide at least the same level of service as the previous system plus some additional benefits. (p40) . . .

This paper was presented on 23 April 1980. In it, Robert Broadbent laments the fact that the harnessing of computer and communications technology for schools did not place a high priority on the ability to record and manipulate location information.

Both SAERIS and TASCIS are, in 1982, undergoing a re-examination of their priorities in this area. TASCIS is now seeking to use the feature to which I referred in May 1980 and which is mentioned on p56 of *School Libraries and Technology*:

In our zeal to promote consistency, we failed to recognise that there is a considerable difference between ASCIS (Australian School Catalogue Information Service) and TASCIS (Tasmanian Schools Cataloguing Information Service).

Our apologies to Marianne Broadbent. — Editor.

Canberra, ACT 2600 (telephone (062) 61 2965).

The sub-committee is also planning to hold a seminar on the AFLC proposal in early 1983, at which parliamentarians, senior public servants and librarians will be invited to participate. Publicity for the seminar will appear in a later *InCite*. *Rosemary Bell.*

Apology to Queensland and Tasmania

InCite has run a number of articles about activities throughout Australia during Information Technology Week. One of these articles stated 'Information Technology Week will be held in all states except Queensland and Tasmania from 15 to 21 August 1982.' (*InCite* v3 no14). Our apologies to Queensland and Tasmania for the possible interpretation that nothing was happening in those states. Our error was genuine as the article was based on a press release received in the LAA office. A report has since appeared outlining ITW activities. — Editor.

Attention Joint Members

A number of LAA members have joint membership whereby only one copy of *ALJ/InCite* is received. Consequently, only one BALLOT Paper will be received. Any members in this category please contact the LAA office for a Ballot Paper or photocopy an available one.

QUEENSLAND INSTITUTE OF TECHNOLOGY

LECTURER IN LIBRARY SCIENCE

Candidates must be eligible for membership of the Library Association of Australia, and hold appropriate academic qualifications. They should have substantial professional experience in librarianship or information science. Tertiary teaching experience would be an advantage. Preference may be given to applicants with expertise in library automation, on-line data-bases, or public services.

The Department of Librarianship offers a generalist Graduate Diploma in Library Science (both Full and Part-time) and is preparing an external version to commence in 1983.

The position is available either on a tenured basis or as a contract position of three years' duration.

Salary range: \$20,963 - \$27,539 p.a. The proposed commencement date is January 1983. Telephone Head of Department (07) 223.2639 for further details.

Applications quoting 1C 111/82 together with full details, including telephone number and the names of three (3) referees to reach the Personnel Officer, QIT, GPO Box 2434, Brisbane, 4001, by Monday, November 15th, 1982.

ASSOCIATE LIBRARIAN (TECHNICAL SERVICES)

SALARY: \$35,664 pa.

TAFE is an expanding organization, continually responding to changing community needs. The Department at present provides post-school education programmes for more than 300,000 students through its network of 89 colleges within New South Wales. The Associate Librarian (Technical Services) is one of four senior managers in TAFE Library Services responsible for the formulation of State-wide library policy. We are looking for an appropriately qualified professional librarian, with demonstrated leadership qualities and managerial ability at a senior level, to control and administer the centralised acquisitions and cataloguing services provided by the Division of Library Services to TAFE colleges. The successful applicant will have overall responsibility for a staff of 69 and a current resource materials budget of approximately \$1.3 million. Automation of the technical services processes, beginning with cataloguing, is under active consideration.

We need an enthusiastic, innovative thinker, with significant technical services experience and an understanding of computerized library systems.

This is a permanent position and superannuation is available from commencement of duty (subject to certain conditions). Please write or telephone us on (02) 219 9219 and we will send you information about this challenging managerial position.

Consideration will be given to payment of fares for interstate applicants and a contribution towards removal expenses for a successful interstate applicant.

CLOSING DATE: 12th November, 1982.

Equality of employment opportunity is TAFE policy. Applications are invited regardless of the applicant's sex, marital status, race, colour, nationality, ethnic or national origin or physical impairment.

Application forms can be obtained by telephoning (02) 219 9381 and 219 9219 between 8.30 am and 4.30 pm, Monday to Friday, or by contacting your nearest TAFE college. Envelopes containing applications should be clearly marked 'Confidential' and forwarded to the Recruitment Section, Department of Technical and Further Education, PO Box K638, Haymarket 2000.
