

Fees 2002–03

The Board of Directors has determined the fees for the 2002–03 membership year, which commences on 1 July 2002. Fees are revised annually, usually in accordance with the movements in Average Weekly Earnings (AWE) and Consumer Price Index (CPI).

Membership fee

The Board of Directors continues the commitment to keep membership fees at a comparative level of those in 1999, prior to the introduction of the GST, which was absorbed. Personal membership fees will increase by the 4.4 per cent annual movement in AWE. Acknowledging requests made by Library Technician members, the cut-off point between Full fee and Reduced fee will be lifted from \$25 000 to \$30 000 to encourage library and information professionals on lower salaries to become and remain personal members. The reduced fee applies also to recent graduates for up to two years after graduation.

Institutional membership fees will increase by 3.1 per cent, equivalent to the annual movement in CPI. Institutional members will receive added benefits, as outlined below.

2002–03 Personal membership fees (including GST)

Full fee salary — \$30 001 or more	\$207.00
Reduced fee — salary below \$30 000	\$103.00

Affiliate fee — for overseas members (full fee less ten per cent GST) includes <i>inCite</i> by airmail	\$188.00

Institutional membership fees are based on an organisation's non-salary budget.

C1 \$100 000 or less	\$242.00
